

## **Andrew McCaskill Bio:**

I have implemented technological pedagogy and infrastructure within education for the past 20 years from the introduction of computer labs through to 1:1 integration of mobile and portable devices. Also had numerous Head of Faculty roles during this period time and been involved in many educational associations. I have worked across many educational systems including the Christian Brothers, Catholic Education, and now, Lutheran Education.

I believe in the globally connected learner and that every educator can enjoy change if they are willing to take the first step.

## **Item 1**

Title: "A whole campus approach to 1:1 iPad implementation"

Presenter: Andrew McCaskill – Head of Learning: Academic ICT Integration

School: Trinity Lutheran College, Gold Coast, Queensland

Email: [Andrew.McCaskill@tlc.qld.edu.au](mailto:Andrew.McCaskill@tlc.qld.edu.au)

Twitter: @andy\_mccaskill

## **Overview:**

Trinity Lutheran College is co-educational P-12 institution over two campuses on the Gold Coast that was established in 1981. We have approximately 1100 students with Years 5 to 9 who are "Bring your own device" and Years 10 to 12 are DER Funded devices. Trinity Lutheran College is also an IB school.

Trinity Lutheran College implemented this campus wide 1:1 iPad program in 2012 and I plan to take you on our journey thus far from planning through to our changes in pedagogy. This presentation will highlight both positives and negatives of the implementation and give you an idea of some of the philosophies and tools used to make this program as strong as it is today.

## Item 2

Title: "Say Good Bye to Double/Triple Handling - Collaborative spaces for the office administration "

Presenter: Andrew McCaskill – Head of Learning: Academic ICT Integration

School: Trinity Lutheran College, Gold Coast, Queensland

Email: [Andrew.McCaskill@tlc.qld.edu.au](mailto:Andrew.McCaskill@tlc.qld.edu.au)

Twitter: @andy\_mccaskill

### Overview:

Are you sick of double and triple handling work that comes from several different sources and then has to be collated by you? Then maybe this workshop is for you! Through using a collaborative space like Google Drive during this workshop, I will show you how this may help you with some of those daily tasks and possibly give you some of your time back. We will look at collaborative documents, spread sheets and forms and how we can best use these and then download them from the internet once populated.
