

FAITH

We can learn so much from each other.

Over a period of two days, sixty students from Faith Lutheran College, Redlands visited residents at Rosevale Court Aged Care Facility. They worked with the Divisional Therapists who had organised a range of activities for the students to do with residents. Activities included: walks in the garden, board games, Wii, playing music, looking through photo albums. The organised visit to Rosevale is part of the College's move towards Service Learning, where students are engaged in not just serving the community, but then learning and growing from the experience by engaging in the processes of planning for and then reflecting on their service activity. Students planned for their visit to Rosevale by learning about Senior Citizens and aged care facilities by having a range of guest speakers come to the College in the lead up to their visit. Following their time at Rosevale students did group reflection discussions about what they had experienced and learnt. Students are now going to come up with ideas about how to keep in contact with the residents through letter writing and going for more visits.
