

# Unconscious bias: Early Childhood Services

---

Discuss these statements in pairs and decide the ways in which these biases might impact on relationships and decisions.

**The kindergarten teacher is clearly the most talented in the Service**

**Educators who can't control the group are poor educators**

**Non-Christian staff don't understand what is important in Lutheran Services**

**When I think of leadership, I think of the Service Leader**

**Young staff are too soft on behaviour management**

**Studying a language other than English is a waste of time**

**We don't need children like that in our Service**

**Formal programs in the early years lead to better long-term outcomes for children**

**Males should not be employed in Early Childhood Services**

**Children from single parent families have more behaviour problems in the Service**

**Child care services are only babysitting; real learning only happens in schools**
