

Growing as leaders

Interested in Leadership in a Lutheran School?

This is an online program designed to provide those aspiring or new to leadership in Lutheran schools an opportunity to explore the leadership framework of [Growing deep](#). Each 90 minute session will feature insights from a guest presenter with leadership experience in the Lutheran system. Participants will also be provided with resources, readings to further their learning and deepen discussions, and a certificate of participation.

The Modules

This free leadership development program will be delivered and developed over 3 years with the goal of creating an online resource for the future. Each year we release a module centred on the foundational Lutheran education document [Growing deep](#). Completion of all of the modules and sessions is optional.
